|--------------------------------------|-------------------------------------|
| 1.Invest in data infrastructure. | 3.Improve the quality of your data. |
| 2.Encourage through data collection. | 4.Develop data governance rules. |

Data culture is where companies implement an analytic,data-backed environment within the workspace.This data-centric culture encapsultates everybody in the business from top to bottom.

Your organisation is probably already tracking different forms of data,whether that's website visits.Actionable insights may come from quantitative or qualitative data.They can be derived from all types of analytics,including descriptive.

These strategic factors include structure,culture,strategic alliances,planning and forecasting,technology,marketing and branding and outsourcing.

AI can lend support addressing all phases of flight-improving strategic planning,enchancing trajectory prediction,enabling the operational efficiency of air traffic control.

A real-time data warehouse allows airlines to control their data sources more efficiently by centralising these sources into one single system.

Your organisation is probably already tracking different forms of data,whether that's website visits,conversion rates,social media presence,or sales growth.

To make insights more actionable ,you need to ensure that they are relevant and timely.Ensure that your business implements them effectively.

- 1.Introspection.
- 2.See things as others see them.
- 3.Observe stakeholder behaviour.
- 4.Look at other industries.
